# Trials in Spain 2012

BIOAKTIV

Pequeñas dosis - Grandes soluciones

**results:**

1. The fruits are more homogeneous and bigger.
2. Fruits could be harvested rather than in the field without the use of BioAktiv. (1 BRIX- plus, 1 penetometry- minus*).
3. The plant grows lush and higher.
4. It can be estimated that 10 - 12% more fruits can be harvested.
5. It is clear to see that no other products were planted in between.
6. The soil is softer and looser.

* For overall results the dealer or representative can be consulted.
